

JaeHwi Kim

Ph.D Student
Changwon National University
Gyeongsangnam-do, South Korea
elshawy@naver.com & 20143041@changwon.ac.kr
+82) 010-7290-9454

EDUCATION

Mar. 2014 ~ Feb. 2021	Changwon National University School of Civil, Environmental and Chemical Engineering <i>B.S. in Civil, Environmental and Chemical Engineering</i> GPA: 3.77 / 4.5	Changwon, Korea
Mar. 2021 ~ Feb. 2023	Changwon National University School of Civil, Environmental and Chemical Engineering Thesis: Characterization of dynamic site properties in the Gimhae Plains using the Microtremor Array Method and the Horizontal-to-Vertical Spectral Ratio method <i>Advisor: Seokho Jeong</i> <i>M.S. in Civil, Environmental and Chemical Engineering</i> GPA: 4.44 / 4.5	Changwon, Korea

RESEARCH INTERESTS

- Earthquake disaster
- Geotechnical investigation
- Exploration geophysics
- Surface wave
- Earthquake simulation

PUBLICATIONS (INTERNATIONAL)

1. **JaeHwi Kim**, Giseok Heo, Dongyoup Kwak, Seokho Jeong, "The Relationship between Bedrock Depth and Site Fundamental Frequency in the Nakdonggang Delta Region, South Korea", *GEOTECHNICS*, (2023)
2. Giseok Heo, **JaeHwi Kim**, seokho Jeong, Dongyoup Kwak, "Evaluation of SPT N and Vs models depending on geologic attributes: case study at Busan, South Korea", *GEOTECHNICS*, (2023)

PUBLICATIONS (DOMESTIC)

1. **JaeHwi Kim**, Seokho Jeong, "Characterization of Deep Shear Wave Velocity Profiles in the Gimhae Plains Using the Microtremor Array Method", Journal of the Korean geotechnical

CONFERENCES

1. **JaeHwi Kim**, Seokho Jeong, "Estimation of velocity structures in the Gimhae Plains using horizontal-to-vertical spectral ratios from microtremors", KGS Fall National Conference, Seoul, Korea (Oct. 2021) - Oral
2. Seokho Jeong, **JaeHwi Kim**, "Characterization of shear wave velocity in the Gimhae Plains using the Microtremor Array Method", KGS Spring National Conference, Seoul, Korea (Mar. 2022)
3. **JaeHwi Kim**, Seokho Jeong, "Characterization of dynamic site properties in the Gimhae Plains using the Microtremor Array Method and the Horizontal-to-Vertical Spectral Ratio method", QuakeCoRE Annual Meeting, Napier, New Zealand (Aug. 2022) - Poster
4. S.Bae, S.Jeong, **J.Kim**, K.Kim, "Broadband Physics-based strong ground motion simulations for the southern Korean Peninsula", QuakeCoRE Annual Meeting, Napier, New Zealand (Aug. 2022)
5. Seokho Jeong, Sung Bae, **JaeHwi Kim**, Kwangyoung Kim, "Prediction of ground motion in South Korea based on physics-based broadband simulation", SCEC Annual Meeting, Palm Springs, United States (Sep. 2022)
6. **JaeHwi Kim**, Seokho Jeong, "A shear wave velocity model of Gimhae Plains sediments based on the Microtremor Array Method", KSCE 2022 Convention, Busan, Korea (Oct. 2022) - Oral
7. S.Jeong, S.E. Bae, **J.H. Kim**, B.A. Bradley, "Prediction of ground motion in South Korea based on hybrid broadband ground motion simulation", IUGG 2023, Berlin, Germany (Jul. 2023)
8. **JaeHwi Kim**, seokho Jeong, "Site effect assessment of the Late-Quaternary sediments in the Nakdonggang delta region using HVSR and MAM techniques", 2023 Busan/Ulsan/Gyeongnam Brance Convention of Korean Society of Civil Engineers , Busan, Korea (Sep. 2023) - Oral
9. **JaeHwi Kim**, Junsu Oh, seokho Jeong, "Site effect assessment of the Nakdonggang delta sediments using a depth-dependent shear wave velocity model", 2023 Earthquake Engineering Society of Korea Workshop, Jeju-do, Korea (Sep. 2023) - Oral
10. Jeong, S, **Kim, J**, OH, J, BAE, S, BRADLEY, B, "Validation of Hybrid Ground Motion Simulation for Engineering Application in South Korea", Seismological Society of America 2023 Future Directions: Physics-based ground-motion modeling, Vancouver, Canada (Oct. 2023)
11. JEONG, S., **KIM, J.**, HEO, G., KWAK, D., "Simplified 3D Basin Velocity Model of the Nakdonggang Delta Region, South Korea, Developed by HVSR and MAM", Seismological Society of America 2023 Future Directions: Physics-based ground-motion modeling, Vancouver, Canada (Oct. 2023)

SKILLS AND TECHNIQUES

- Python (Basemap, Obspy)
- Geopsy, Dinver
- PySeismoSoil
